# Highlights

## Natural latch on

The wide breast shaped nipple promotes natural latch on similar to the breast, making it easy for your baby to combine breast and bottle feeding.

## Unique comfort petals

Petals inside the nipple increase softness and flexibility without nipple collapse. Your baby will enjoy a more comfortable and contented feed.

## Advanced anti-colic valve

Innovative twin valve design reduces colic and discomfort by venting air into the bottle and not baby's tummy.

## Ergonomic shape

Due to the unique shape, the bottle is easy to hold and grip in any direction for maximum comfort, even for baby's tiny hands.

## Translucent pacifier

The orthodontic, collapsible nipple of the translucent pacifier respects the natural development of baby's palate, teeth and gums. All our pacifiers are made from silicone and are taste and odour-free.

## Compatibility across the range

The new Philips Avent Natural bottle is compatible with the Philips Avent range, excluding Classic bottles and cup handles. We

advise to use the Natural bottles with Natural feeding nipples only.

## Curved brush head

Specially curved brush head and molded handle-tip reach the corners of all wide neck bottles, nipples and feeding products for thorough cleaning.

## Simple to use and clean

Wide bottle neck makes filling and cleaning easy. Only a few parts for quick and simple assembly.

## These bottles are BPA free\*

The new Philips Avent Natural bottles are made of BPA free\* material (polypropylene).
